Question: 2

HOTSPOT

You need to create and configure objects to support the requirements.

How should you configure the system? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Setting	Value
Total number of queues	<input type="text" value="3"/> ▼ 3 4 5 6
Number of automatic case creation rules	<input type="text" value="1"/> ▼ 1 2 3 4
Number of routing rule sets	<input type="text" value="3"/> ▼ 3 4 5 6

---

Answer:

Setting	Value
Total number of queues	<input type="text" value="3"/> ▼ 3 4 5 6
Number of automatic case creation rules	<input type="text" value="1"/> ▼ 1 2 3 4
Number of routing rule sets	<input type="text" value="3"/> ▼ 3 4 5 6

---

### Question: 3

You need to configure the queue for telephone-based cases.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Create a case from email.
- B. Define an SLA and entitlements and set entitlement values for case numbers.
- C. Configure a status reason transition.
- D. Create a case routing rule.
- E. Automatically create or update records.

---

Answer: BC

---

### Question: 4

HOTSPOT

You need to configure the correct settings.

Which settings should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Scenario	Setting
Process cases for an insurance type once a type is selected.	<input type="checkbox"/> Case routing <input type="checkbox"/> Automatically create and update records <input type="checkbox"/> Create queues
Receive and process an email from a customer to open an insurance claim.	<input type="checkbox"/> Case routing <input type="checkbox"/> Automatically create and update records <input type="checkbox"/> Create queues
Ensure cases phoned in can be separated and taken only by the applicable representative.	<input type="checkbox"/> Case routing <input type="checkbox"/> Automatically create and update records <input type="checkbox"/> Create queues

Answer:

Scenario	Setting
Process cases for an insurance type once a type is selected.	<input checked="" type="checkbox"/> Case routing <input type="checkbox"/> Automatically create and update records <input type="checkbox"/> Create queues
Receive and process an email from a customer to open an insurance claim.	<input type="checkbox"/> Case routing <input checked="" type="checkbox"/> Automatically create and update records <input type="checkbox"/> Create queues
Ensure cases phoned in can be separated and taken only by the applicable representative.	<input type="checkbox"/> Case routing <input type="checkbox"/> Automatically create and update records <input checked="" type="checkbox"/> Create queues

---
